

APHORISMS

1. Uwagi ogólne

Tekst *Aphorisms* jest adresowany do studentów filologii, a także studentów kierunków humanistycznych, zainteresowanych tematyką aforyzmów i postaci, które wywarły wpływ na literaturę, naukę, myśl filozoficzną, politykę oraz losy współczesnego świata.

2. Poziom zaawansowania: B2+/C1

3. Czas trwania opisanych ćwiczeń

Do decyzji prowadzącego pozostaje, czy proponowany materiał wykorzysta w formie jednej rozbudowanej lekcji (90 minut), czy też podzieli materiał na kilka niezależnych (np. 15- lub 30-minutowych) modułów, przykładowo będących uzupełnieniem realizowanej tematyki.

4. Cele dydaktyczne

Celem dydaktycznym jest przybliżenie studentom postaci wybitnych i mniej znanych osobistości, które wywarły wpływ na kształt współczesnego świata. Punkt wyjścia do dyskusji nad wybranym zagadnieniem (np. pojmowaniem miłości lub stosunkiem do pracy, biznesu czy polityki) to skontrastowanie poglądów wyrażonych przez autorów wypowiedzi z własnym pojmowaniem tychże zjawisk. Nie bez znaczenia pozostaje element humorystyczny w zaprezentowanych cytatach.

5. Uwagi i sugestie

Ćwiczenia najlepiej przebiegają, jeśli studenci pracują w parach lub grupach maksymalnie trzynosobowych. Dla wszystkich ćwiczeń sprawdza się następująca procedura:

- czas na indywidualne zapoznanie się studenta z aforyzmami,

- czas na skonsultowanie odpowiedzi z partnerem (partnerami w małej grupie) – przy pytaniach zamkniętych,
- czas na zaprezentowanie i umotywowanie własnego stanowiska przed partnerem (partnerami w małej grupie) – przy pytaniach otwartych,
- wymiana myśli na forum całej grupy i ustosunkowanie się do zagadnień wyrażonych w aforyzmach.

Niemniej jednak prowadzący może, według swojego uznania, wprowadzić takie elementy, jak: limit czasowy na wykonanie ćwiczenia; współzawodnictwo pomiędzy zespołami – konkurs na najlepsze propozycje słów (ćwiczenie G); próba wspólnej klasyfikacji cytatów na forum grupy; dobranie się w zespoły osób, które prezentują podobne poglądy.

APHORISMS

1. Read the Part I of the text on aphorisms. How is the *aphorism* defined?
2. Why, in your opinion, does James Geary call the aphorism “our most intimate, idiosyncratic literary genre?”

PART I

British Winter Introduces a Few Aphorisms and Their Makers

By Rob Kyff, teacher and writer in West Hartford, Conn., USA, © Creators Syndicate, Inc.

“God is either cruel or incompetent.”

“Common sense is not so common.”

“The early bird gets the worm, but the second mouse gets the cheese.”

These pithy quips from Woody Allen, Voltaire and Steven Wright, respectively, are classic examples of aphorisms. Briefly defined, an aphorism is a tersely phrased statement of a truth or opinion. British writer James Geary loves aphorisms, and he’s collected over 300 of them in a new book, *Geary’s Guide to the World’s Greatest Aphorisms* (Bloomsbury, \$25.95).

Geary includes a brief profile of each contributor. “The aphorism is our most intimate, idiosyncratic literary genre,” he writes in the book’s introduction, “so I’ve tried to give a glimpse of the lives and personalities behind the sayings through quick character sketches.”

These snapshots reveal the idiosyncrasies of icons. Alexander Pope, for instance, author of “To err is human, to forgive divine,” stood just four feet, six inches tall. Ralph Waldo Emerson, who wrote, “When it is darkest, men see the stars,” was deeply influenced by his mother, who slept in a bed shaped like a coffin and wore a burial shroud when traveling. Gertrude Stein, who wrote, “We are always the same age inside,” drove supplies to French hospitals during World War I. (The only shortfall of Geary’s wonderful collection, by the way, is that it doesn’t include more female contributors.)
